

24 Month Questionnaire

23 months 0 days through 25 months 15 days

On the following pages are questions about activities children may do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet.

"	mportant Points to Remember:	otes:				
Ľ	1 Try each activity with your child before marking a response.					
_	Make completing this questionnaire a game that is fun for you and your child.					
•	Make sure your child is rested and fed.					
•	Please return this questionnaire by					—)
chilc	nis age, many toddlers may not be cooperative when asked to do the more than one time. If possible, try the activities when your child is k "yes" for the item.					
CC	OMMUNICATION		YES	SOMETIMES	NOT YET	
,	Without your showing him, does your child point to the correct pictor when you say, "Show me the kitty," or ask, "Where is the dog?" (Shoneeds to identify only one picture correctly.)		\bigcirc	\bigcirc		
:	Does your child imitate a two-word sentence? For example, when yo say a two-word phrase, such as "Mama eat," "Daddy play," "Go home," or "What's this?" does your child say both words back to yo (Mark "yes" even if her words are difficult to understand.)		\bigcirc	\bigcirc		
	Without your giving him clues by pointing or using gestures, can you child carry out at least <i>three</i> of these kinds of directions?	ur	\bigcirc	\bigcirc	\bigcirc	
	a. "Put the toy on the table." d. "Find your coat."					
	b. "Close the door." e. "Take my hand."					
	c. "Bring me a towel."					
	If you point to a picture of a ball (kitty, cup, hat, etc.) and ask your cl "What is this?" does your child correctly <i>name</i> at least one picture?	hild,	\bigcirc	\bigcirc	\bigcirc	
	Does your child say two or three words that represent different idea together, such as "See dog," "Mommy come home," or "Kitty gone (Don't count word combinations that express one idea, such as "bye," "all gone," "all right," and "What's that?") Please give an example of your child's word combinations:	e"?		0		

COMMUNICATION (continued)	YES	SOMETIMES	NOT YET	
6. Does your child correctly use at least two words like "me," "I and "you"?	," "mine,"	\bigcirc	\bigcirc	
		COMMUNICATIO	ON TOTAL	
GROSS MOTOR	YES	SOMETIMES	NOT YET	
1. Does your child walk down stairs if you hold onto one of her l She may also hold onto the railing or wall. (You can look for the store, on a playground, or at home.)		0	\bigcirc	
2. When you show your child how to kick a large ball, does he try to kick the ball by moving his leg forward or by walking into it? (If your child already kicks a ball, mark "yes" for this item.)				
 Does your child walk either up or down at least two steps by herself? She may hold onto the railing or wall. 				
4. Does your child run fairly well, stopping herself without bumping into things or falling?		0	0	
5. Does your child jump with both feet leaving the floor at the same time?			0	
6. Without holding onto anything for support, does your child kick a ball by swinging his leg forward?		0	0	*

9. Does anything about your child worry you? If yes, explain:	YES	○ NO			

Lead Exposure Risk Assessment Questionnaire for Children

In addition to the required testing of all children for lead with a blood lead test at one year of age and again at age two, assessment of risk for lead exposure should be done at each well-child visit or at least annually for each child six months to six years of age. The questions below serve as a risk assessment tool based on currently accepted public health guidelines. Children found to be at risk for lead exposure should receive a blood lead test whenever such risk is identified.

A		wer
Questions	Yes	No
Does your child live in or regularly visit a house/building built before 1978 with peeling or chipping paint, or with recent or ongoing renovation or remodeling? Note: This could include a day care center, preschool, and the home of a babysitter or a relative.		
2. Has your family/child ever lived outside the United States or recently arrived from a foreign country?		
3. Does your child have a brother/sister, housemate/playmate being followed or treated for lead poisoning?		
4. Does your child frequently put things in his/her mouth such as toys, jewelry, or keys? Does your child eat non-food items (pica)? Note: This may include toys or jewelry products that have been recalled by the Consumer Products Safety Commission (CPSC) due to unsafe lead levels: www.nyhealth.gov/environmental/lead/recalls		
5. Does your child frequently come in contact with an adult whose job or hobby involves exposure to lead? Note: Jobs include house painting, plumbing, renovation, construction, auto repair, welding, electronics repair, jewelry or pottery making. Hobby examples are making stained glass or pottery, fishing, making or shooting firearms and collecting lead or pewter figurines.		
6. Does your child live near an active lead smelter, battery recycling plant, or another industry likely to release lead, or does your child live near a heavily-traveled road where soil and dust may be contaminated with lead? Note : May need to alert parent/caregiver if such an industry is local.		
7. Does your family use products from other countries such as health remedies, spices, or food, or store or serve food in leaded crystal, pottery or pewter?		
Note: Lead has been found in traditional medicines such as Ayurvedic medicine, liga, greta, azarcon, litargirio, and in cosmetics such as kohl, surma, and sindoor. Lead exposure risk is higher with old, imported, painted, cracked or chipped china, and in low-fired and terra cotta pottery, often made in Latin America and the Middle East.		

If the answer to any of the above questions is YES, then the child is considered to be at risk for lead exposure and should receive a blood lead test.

- Ask any additional questions that may be specific to a particular community (or population) e.g. high risk zip code, refugee child
 recently arrived in the United States, children with behavioral and/or developmental disabilities, children who receive Medicaid
 or children entering foster care.
- Ask if any of the above conditions are expected to change in the future (e.g. house remodeling).
- Tailor appropriate anticipatory guidance to the child and family.

Child's Name	Filled out by:
